26 Jan

HTLV-2 encoded
Max: "ballo going crazy, 20 or so isolates"

30 Jan

reprod. Baune's sera LAS 100% +

ANDS

7 Feb LAV + CDC

controls

15 Feb Chermann comes to CDC ~~status~~

27 Mar:

Gallo

"Baune' trained in my lab"

"I think I gave (to French)"

"They better have what I have or they will
be a major battle."

"If we make an announcement, it
will be taken by NIAID" We need to
keep it quiet"

"I came to Cold Spring Harbor sensitized
that ^{Montagnier} they had sent me bird stuff"

"I told Jim Curran that I could
impress him"

"I trust Jean-Cloude"

"This is my strategy:

- 1.) Must say something soon. But only have
Reverse transcriptase and ser. Must

March (could)

2. sooner or later: x number of isolates

3. see if our virus is ^{identical to} related to French "

" I will say it is if it is identical "

" Jim Cannon suggested that virus (LAV - Gallo) be studied "

" story ours in terms of numbers of isolates "

" Largest serologic studies from me will be done with CDC "

" CDC will get credit for 1st detection "

" I started field and proved cause "

" I think it's over "

" Don't jump off Ray's band wagon - he's right "
